

Dear A2Z,

1-11-14

One of the reasons why I enjoy A2Z is, because I learned skills better than I do in school. Since it is one on one I can focus better and learn faster. I like my mentor because she is patient and let me try finding the spelling of words first, then she tells. My mentor taught me grammar and how to write essays. My mentor helps me study for test and quizzes; she also help with my projects. The way A2Z has helped me, is by bringing my grades up.

☺ Sincerely, Michelle Frolio ☺
